Our Strength is Our People

The Calgary Energy Centre (CEC), located in northeast Calgary, is a state-of-the-art 250-megawatt combined cycle natural gas-fired electricity facility that produces enough electricity to supply the equivalent of 250,000 homes, and produces an additional 50-megawatts of capacity at peak periods. North American Energy Services Canada is currently looking for a dynamic individual with complementary skills and abilities to ensure maximum plant reliability. A culture of integrity, teamwork, cooperation and mutual respect is the foundation of success at the Calgary Energy Centre.

Mechanical Maintenance Technician

As an essential member of the Calgary Energy Centre team, you will be responsible for the mechanical maintenance programs for the facility. This will include planning, scheduling, conducting and supervising mechanical activities. You will be required to order material and manage a section of the warehouse inventory. You will possess an Alberta Provincial Journeyman Millwright Certificate. Previous experience with a computer based maintenance management program, predictive maintenance program and warehouse activities would be an asset. Preference will be given to applicants with extensive experience in the maintenance of a power generation facility.

If you are interested in applying for this position, please forward your résumé by June 13, 2007, to:
 North American Energy Services Canada – Calgary Energy Centre,
 Employment Opportunities, P.O. Box 191, Balzac, Alberta T0M 0E0.
